Subject: Oregon Annual report Satisfactory Progress package

Dave – just want to follow up since I am not in the office today, did Bella happen to pass along the Oregon package. I sent her the electronic file and a folder with the letter for signature, the attachments and the Annual Report. Ideally I would like to get it to you

Ex. 6 - Personal Privacy

Ex. 6 - Personal Privacy

The actual grant for next year I believe is moving through the system. Yesterday was a frantic effort between me and grant related people to move the process along. The grant FR asks for a copy of the letter of Satisfactory Progress as an attachment. Most of the changes to the package were concerned with how to word the fact that Oregon did not live up to guidance which dictates a certain percentage of incremental money for restoration work. They did okay but needed money to maintain people. They did not do badly in 2013 and after careful examination of their reporting, it looks like they did better than they originally reported but did not make 80%. They made 55% but reported 37%. The guidance is very confusing. Its changing and hopefully will be less so. Anyway, I think the wording in the package is more fleshed out and explains what they did.
